

MALE RECTAL EXAMINATION TRAINER - STANDARD & ADVANCED

60170	STANDARD
60171	ADVANCED
Simulated Patient	

This brand new trainer offers realistic, repeatable training in the core skill of digital rectal or PR examination.

The Advanced model comes with a range of prostates and 2 perineums, allowing trainees to become familiar with normal and abnormal findings and acquire key diagnostic skills. External ano-rectal illustrations are ideal for incorporation into scenarios and OSCE assessments.

The Standard model focuses on learning core rectal nursing procedures and excludes the pathologies.

Both models offer a contractible anal sphincter, allowing for anal tone assessment and a faecal impaction clip in module.

QUALITIES

* Advanced model

ANATOMY

- Buttocks, anus, rectum, prostate and perineum
- Pathological perineum – with polyp and rectal cancer*
- 4 abnormal prostates*:
 - Benign unilateral enlarged
 - Benign bilateral enlarged
 - Unilateral carcinoma
 - Bilateral carcinoma

REALISM

- Soft, partable buttocks
- Realistic anus with resting tone and ability to contract

KEY FEATURES

- Simulation of sphincter contraction allows trainees to assess anal tone
- Interchangeable prostates can be quickly and easily inserted, out of sight of the trainee*
- Left lateral positioning
- Addition of impacted faecal matter allows trainees to recognise and distinguish this common finding
- High quality illustration pack of 9 external anal conditions*

VERSATILITY

- Trainer can also be presented in 'semi-standing' position using the optional Standing Position Stand (**60172**)

SAFETY

- Latex free

SKILLS

- Digital examination of the anus, rectum and prostate
- Assessment of anal tone
- Identification of faecal matter in the rectum
- Identification of external ano-rectal conditions*
- Professional to patient communication
